- 2** Klausz Dental Lab's Digital Showcase and Open House Event
- 3** Anterior Aesthetics - Case Courtesy of Dr. Genoveva Caminschi
- 4** Composite Bonding Hands-on Course with - Dr. Ron Goodlin

We've grown into an O.I.C.S. Laboratory!

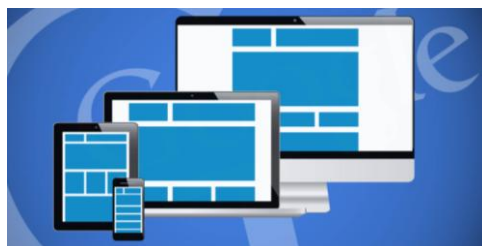

At **Klausz Dental Laboratories**, we are committed to providing our clients with a full range of services, restorations, and appliances to meet all aspects of clinical dentistry. To meet your expectations we have grown into an **Occlusal-Implant-Cosmetic-Sleep (O.I.C.S.) Specialty Laboratory** and we have solidified our position as a leader in these fields through various certifications.

With over 50 years of experience in the dental technology field, we build advanced occlusal concepts into every restoration and appliance we custom fabricate. It's with a greater understanding of how teeth, muscles and joints work together that we can create restorations that not only look lifelike and aesthetic, but can last longer and function better. Allow us to apply the knowledge we've accumulated into your next restoration or appliance. See why we've become an **O.I.C.S. Specialty Laboratory**.

We've Updated Our Website to Serve You Better
Your portal to all that's new and exciting in dental
technology is now available at your fingertips

www.klauszdentallab.com

We've redesigned and updated our website to provide our clients with more information on:
The restorations and dental appliances we custom fabricate
The many custom services we provide
The unique products we offer
Helpful tips and techniques

Klausz Dental Laboratories Open House and Digital Showcase Event

Come discover for yourself the benefits and advantages of some of today's more advanced restorations, appliances, and techniques.

Date: Wednesday, October 23, 2019

Time: 5:30 to 9:00

Location: Klausz Dental Laboratories

Digital Showcase

Representatives and scanners from some of the most popular names in in-office digital scanning and impression-taking will be on hand so you can see for yourself the many advantages that each system offers. Evaluate which system will be best for you in a non-pressure environment.

Have Questions Answered About Treating Patients With OSA and Snoring.

One of the fastest growing fields in modern dentistry is sleep. Come meet Dr. John Viviano, who has dedicated his career to the study, treatment, and education of fellow dentists in the area of OSA and sleep related issues. He has built the only clinic in Canada that is accredited by the AADSM.

Learn the Secrets of Accurate Shade Selection.

We've partnered with Jo-anne Benninger and her company, Finishing Touch Dental Arts to provide our clients with in office Shade Selection and in office Custom Staining. Jo-anne will be offering tips to help you make shade selections more accurate.

Who Can You Trust With Your Scrap Alloy Refining Needs?

Dentistry is built on trust. You've invested years creating trusting relationships with your patients, and there is perhaps no vendor for which trust is a more important issue than your dental laboratory. We trust Mark Mendelson with our alloy refining and he'll be on hand to answer your questions.

What Sets Your Dental Practice Apart From The Rest?

What message is your internal and external marketing sending out into the world? Juan-Carlos Ortiz and his company IDENTITY NAMEBRANDS INC. have been helping dental practices create branded marketing that gets noticed. Speak to him about your practice needs.

Come for an evening of learning, sharing, and excitement by collaborating with likeminded members of the dental community. We're looking forward to a great evening of discussing ideas to better serve you and your patients.

Drop in for refreshments, surprises, and a chance to win some great prizes!

We welcome all members of your dental team

Please R.S.V.P. with Samantha

Anterior Aesthetics by Klausz Dental Labs

Case Courtesy of Dr. Genoveva Caminschi, Mississauga, Ontario

“Working with Ron and his team at Klausz Dental Lab is a true pleasure. Having someone in the laboratory who I can discuss cases with is very important to me. It enables me to provide options to my patients with confidence, because I know that the final results will be predictable, meeting my expectations and my patient’s desires.”

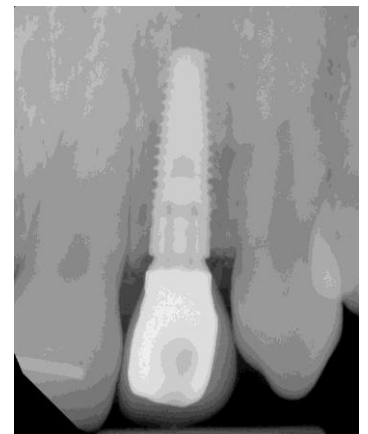

- Dr. Genoveva Caminschi, Mississauga

The patient is a young woman who was self-conscious about her smile. She presented missing her left lateral incisor, her right lateral incisor was oddly shaped, and her central incisors were not symmetrical.

An implant was placed in the 22 position with the desire of fabricating a screw retained final restoration. The labial biotype was thin and the concern was that the tissue would recede and the interdental papilla would shrink away. The patient went to the laboratory for a Cosmetic Consultation and the implant was restored with a Procera CAD Zirconia ASC Screw Retained Crown. Chair side bonding was done to reshape teeth 12, 21, & 23.

Esthetically the case turned out beautifully, and the patient was thrilled with the final result.

Composite Bonding For Enhanced Aesthetics And Longevity Hands-on Course with Dr. Ron Goodlin

Presented By Smiles First Academy
Sponsored By Klausz Dental Laboratories

SMILES FIRST
ACADEMY

www.smilesfirstacademy.com

Date: November 29, 2019

Location: Ivoclar Vivadent Inc.,
6600 Dixie Rd, Mississauga, ON, L5T 2Y2

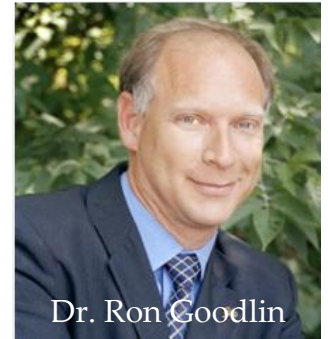

Time: 8:00am - 3:30pm

Price: \$795+HST

COURSE DESCRIPTION

Bonding with composites is a fantastic tool that has become the mainstay in most practitioner's toolboxes, but how can we handle those difficult cases such as broken, discoloured, misaligned teeth and even the closure of diastemas? This course provides a full day of hands on training to show you how to deal with these, as well as dealing with posterior composite sensitivity while giving these restorations an enhanced appearance using state of the art composite artistry!

Dr. Ron Goodlin
